### FACIAL ULTRASOUND / CAVITATION

Cavitation combines the effects of gentle, ultrasonic peeling and ultrasound frequencies. ### RADIO FREQUENCY FOR THE FACE & BODY

A safe, non-invasive, but highly intensive treatment for tightening the skin and restructuring the contour of both the face and body, and treating cellulite. Using metal probes, we introduce high temperature to the skin, heating up the subcutaneous tissue causing collagen and elastic fibers to regenerate and reproduce.

## FACIAL MICRODERMABRASION

Microdermabrasion is the most popular and highest volume facial rejuvenation procedure in the world. It gives the skin a micro massage, increasing circulation, therefore it has a positive effect on skin's condition, firmness and thickness. ## DERMAL FILLERS

€ P.O.R.

Injectable cosmetic wrinkle fillers are soft tissue fillers approved as medical devices to help fill in facial wrinkles, restoring a smoother appearance.
